ABOUT ME

As a passionate computer science professional with a focus on programming and creative problem-solving, I am dedicated to applying my extensive skills and knowledge to real-world challenges. With proficiency in various programming languages, including Python, as well as hands-on experience in React, Next.js, and TypeScript for web development, and Flutter and Dart for mobile app development, I am well-equipped to tackle complex and cross-platform projects. Whether working independently or collaboratively, I uphold a strong commitment to delivering high-quality results through meticulous attention to detail. My transition from a dedicated student to an accomplished software developer has enabled me to contribute effectively to projects, bringing innovation and efficiency to the table. I thrive on the challenges presented by cutting-edge technologies and leverage my diverse skill set to craft seamless user experiences.

Apart from my technical expertise, I hold a deep passion for Formula 1, football and Cricket, which I follow closely. My curiosity knows no bounds, and I consistently seek opportunities to further expand my knowledge and skills in these areas. I am enthusiastic about embracing fresh challenges and continuing my growth as a dynamic computer scientist who excels in making a tangible impact.

WORK EXPERIENCE

Software engineer

Signature Trust Management [17/08/2023 – Current]

Country: Remote

- Developed and maintained front-end solutions using React and TypeScript, ensuring a responsive and user-friendly web application.
- Collaborated closely with the design and product teams to translate wireframes and mockups into interactive and functional UI components.
- Implemented state management to efficiently manage and share application data, enhancing performance and maintainability.
- Conducted code reviews and participated in agile development processes to ensure code quality and alignment with project objectives.
- Worked on optimizing the application for performance by identifying and addressing bottlenecks, resulting in reduced load times and improved user experience.
- Integrated RESTful APIs for real-time data updates, enhancing the overall functionality of the application.

EDUCATION AND TRAINING

Bachelor of Computer Science

Comsats University Islamabad, Wah Campus [01/09/2019 – 01/06/2023]

Address: COMSATS University Islamabad, Wah Campus G.T Road Wah Cantt 47040, WahCantt (Pakistan)

Website: <https://cuiwah.edu.pk/>

Higher Secondary School Certificate

FG Quaid-e-Azam Degree College

City: Rawalpindi

Country: Pakistan

Secondary School Certificate

Rising Pakistan Montessori & high school

City: Rawalpindi

Country: Pakistan

LANGUAGE SKILLS

Mother tongue(s): **Urdu**

Other language(s):

English

LISTENING C1 READING C2 WRITING C1

SPOKEN PRODUCTION C1 SPOKEN INTERACTION C1

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

DIGITAL SKILLS

Git / React Frame Work / Python / Javascript/Typescript / HTML / Bootstrap / CSS / JSON / Linux / HTML5 / Object-Oriented Programming / Github / SQL / Web Development / RESTful api / Next.js

PROJECTS

Where2Travel

[22/05/2022 – 01/06/2023]

A comprehensive Flutter-Based Travel App with City Data, News, Blogs, recommendations, and Hotel Information.

Blitz Game

[24/07/2023 – Current]

My role in this project encompassed the successful conversion of a Figma design into a fully operational React web application, incorporating best practices in web development, design fidelity, and user experience to deliver a high-quality product. This project showcases my proficiency in both front-end development and design interpretation, resulting in a seamless fusion of creativity and functionality.

WinBet

[01/09/2023 – Current]

Pioneering the Future of Online Casinos in Asia with Unmatched Technical Expertise and Unwavering Commitment to Partnership.

In this project, I successfully executed the conversion of a Figma design into a fully functional React web application. This involved a comprehensive process of translating static design elements into dynamic, interactive user interfaces,
